Bolt EV is a great vehicle that just happens to be electric, created to do everything well to help you get whatever you want out of life.

It offers an EPA-estimated 259 miles of pure electric range on a full charge; and charging the battery can be as easy as plugging in a cell phone. At the same time, it can accelerate from 0 to 60 mph in 6.5 seconds² and has a low center of gravity, making it exceptionally fun to drive.

There’s plenty of room for five passengers and all your gear. You can fold the rear seats down for up to 56.6 cubic feet of maximum cargo space³ And every Bolt EV comes with the peace of mind found in the 8-year/100,000-mile⁴ Electric and Hybrid Vehicle Warranty Coverage.

So go ahead. Live life on your own terms, while also living electric.

¹ EPA-estimated 259-mile EV range. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. ² Based on initial vehicle movement. ³ Cargo and load capacity limited by weight and distribution. ⁴ Whichever comes first. See dealer for details.
Bolt EV offers an EPA-estimated 259 miles of range on a full charge, which not only lets you go farther, but also lets you “refuel” less often. And that gives you more time to enjoy the things you love.

With exhilarating acceleration, 200 horsepower and 266 lb.-ft. of torque, Bolt EV is a blast to drive.

The responsive surge of torque when you hit the accelerator will keep those pure electric miles from ever getting boring. Bolt EV offers less maintenance than a gas vehicle, since you don’t need to worry about oil changes, transmission fluid flushes or spark plug replacement. Not to mention you won’t be spending any time — or money — at the pump.

Features like Regen on Demand™ and One Pedal Driving³ are engineered to help improve efficiency. But more than that, they’re the type of innovative thinking that makes Bolt EV the vehicle you have to drive to believe.

The Electric Power Steering system offers variable response that can sense whether the driver is maneuvering the vehicle at low speeds or high speeds and can adjust the level of steering assist to meet the situation.

Michelin® Energy™ Saver All-Season tires with Selfseal® technology offer low rolling resistance, which helps maximize range, and are designed to self-seal in the event of a minor tread puncture, such as that made by a nail.⁴

---

1 EPA-estimated 259-mile EV range. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. 2 Regenerative braking performance may be limited when the battery is cold or near full charge. See chevrolet.com for details. 3 One Pedal Driving and deceleration features may be limited when the battery is cold or near full charge. See the Owner’s Manual for details. 4 Up to 1/4-inch diameter with a loss of less than 15 psi per week. 5 Based on initial vehicle movement.
CHARGE HERE, THERE OR NEARLY ANYWHERE.

Bolt EV comes with both 120-volt and 240-volt charging capability.

With the available 240-volt home charging unit from Chevrolet Accessories, you can charge your Bolt EV up to five times faster than with the standard 120-volt portable charge cord! Professional installation is required for the 240-volt charging unit, which can be coordinated by our partner Qmerit.

For equipped vehicles, DC Fast Charging is available at public charging stations and provides up to 100 miles of range in about 30 minutes of charge 1 — perfect when you’re on a road trip. DC Fast Charging is standard on Premier.

The available myChevrolet Mobile App2 with Energy Assist lets you find charging stations in your area.

You can delay charging to take advantage of off-peak electricity rates (if available) when you’re at home and begin charging immediately when you’re away.

The 8-inch diagonal Driver Information Center, 10.2-inch diagonal color touch-screen and available myChevrolet Mobile App2 show range information.

---

1 Charging rate varies based on output of the charge unit, vehicle settings and outside temperature. 2 Available on select Apple and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. Visit onstar.com and chevrolet.com for details and limitations. Energy Assist does not provide turn-by-turn navigation.

1 Charging rate varies based on output of the charge unit, vehicle settings and outside temperature. 2 See the Owner’s Manual for important safety information about charging with a portable charge cord. 3 For more information about hardware and installation services, see your certified Bolt EV dealer or visit chevrolet.com/electric/living-electric.
Regen on Demand¹ allows you to convert kinetic energy into energy stored within the battery for future use. A simple pull and hold of the Regen on Demand paddle can decelerate your Bolt EV and store energy.

While driving in Low mode at any speed, One Pedal Driving² lets you efficiently speed up and slow down by using only the accelerator pedal. When you want to speed up, press your foot down like you normally would. And when you want to slow down, just lift your foot off the accelerator. One Pedal Driving helps you capture some of the energy from the moving vehicle and turns it back into electrical energy, which is then stored in the battery. Of course, you should always use your brake pedal if you need to stop quickly.

Every Bolt EV comes standard with 8-year/100,000-mile Electric and Hybrid Vehicle Warranty Coverage and Courtesy Transportation,³ plus 5 years/60,000 miles of Roadside Assistance.⁴ Like Bolt EV, the peace of mind goes on for miles and miles.

¹ Regenerative braking performance may be limited when the battery is cold or near full charge. See chevrolet.com for details. ² One Pedal Driving and deceleration features may be limited when the battery is cold or near full charge. See the Owner’s Manual for details. ³ Whichever comes first. See dealer for details. ⁴ Roadside service provided by Allstate Roadside Services. Limitations apply.
• Daytime running lamps with LED signature.

• Michelin® Energy™ Saver All-Season tires with Selfseal® technology.

• Enclosed underbody to streamline airflow.

• Generous window space provides an excellent view of your surroundings.
IT FITS YOUR LIFE.

There’s no doubt Bolt EV is a perfect vehicle for those who want to drive electric. But it was designed from the inside out to accommodate nearly any lifestyle.

The creative interior design seats five passengers comfortably, with ample leg room.

Rear seats fold down for 56.6 cubic feet of maximum cargo space; which along with the wide-opening liftgate allows easy loading of large or odd-sized items.

The design of the Electronic Precision Shift allowed for the creation of a multipurpose front console that delivers plenty of functionality, including a sliding armrest with hidden storage and generous bins.

The battery placed beneath the floor enables a flat storage surface and a very spacious front compartment. It also facilitates easy entry and exit.

The rear cargo area features a deep well with an available false floor for additional storage.

† Cargo and load capacity limited by weight and distribution.
CONNECTION POINTS.

- Chevrolet Infotainment System¹ with 10.2-inch diagonal color touch-screen display.
- Apple CarPlay² compatibility.
- Android Auto™³ compatibility.
- Available 4G LTE Wi-Fi® Hotspot⁴ provides a fast and reliable connection to stay in touch while you’re on the go.

¹ Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ² Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ³ Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates apply. ⁴ Service varies with conditions and location. Requires active service and paid AT&T data plan. Visit onstar.com for details and limitations.

Apple CarPlay, iPhone, Siri and Apple Music are trademarks of Apple Inc., registered in the U.S. and other countries. Android Auto is a trademark of Google LLC.
THE WORLD AT YOUR FINGERTIPS.

The myChevrolet Mobile App1 with Energy Assist uses key information such as the vehicle’s current charge, driving conditions and real-time weather to plan the most efficient places to charge along your route. If you need to stop for a charge, Energy Assist points you to the nearest charging station and automatically updates as conditions change, so you’ll know exactly where to go.

In addition to range and charging data, Energy Assist can now tell you if a select station is working, available and compatible with your Bolt EV.

1 Available on select Apple and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. Terms apply. Device data connection required. Visit onstar.com and chevrolet.com for details and limitations. Energy Assist does not provide turn-by-turn navigation.
The Efficiency History Screen displays energy efficiency for the previous 50 miles.

The Confidence Gauge continuously monitors available range.

The Range Impacts Screen shows how select factors can affect range.

Standard Electronic Precision Shift and available wireless charging:

1 The system wirelessly charges one compatible mobile device. Some phones have built-in wireless charging technology and others require a special adaptor/back cover. To check for phone or other device compatibility, see my.chevrolet.com/learn or consult your carrier.
HELPING YOU SAFELY DOWN THE ROAD.

**Front Pedestrian Braking.** At speeds below 50 mph, this feature can help you avoid or reduce the severity of a front-end collision with a pedestrian it detects directly in front of you. It provides pedestrian alerts and can even automatically provide hard emergency braking or enhance the driver’s hard braking. Limited nighttime and low-visibility performance. Available on LT and Premier.

**Automatic Emergency Braking.** At speeds below 50 mph, this feature works with Forward Collision Alert to help you avoid or reduce the severity of a front-end collision with a detected vehicle you’re following by automatically providing hard emergency braking or enhancing the driver’s hard braking. Available on LT and Premier.

**Forward Collision Alert.** Can warn you if it detects a potential front-end collision with a vehicle you’re following. It can also provide a tailgating alert if you’re following much too closely. Available on LT and Premier.

**Lane Keep Assist with Lane Departure Warning.** Uses a brief, gentle steering wheel turn to alert you when you may be unintentionally drifting out of detected lane lines, so you can steer to stay safely in your lane. If needed, you may receive additional Lane Departure Warning alerts. System alerts do not occur if you are using your turn signal or it detects that you may be intentionally leaving your lane. Available on LT and Premier.

**Lane Change Alert with Side Blind Zone Alert.** This feature can provide side mirror visual alerts when a detected moving vehicle is quickly approaching or is in your side blind zone. Standard on LT and Premier.

**HD Rear Vision Camera.** This feature provides an image of the area directly behind your vehicle when traveling in Reverse at low speeds. Available on all models.

**Rear Park Assist.** Can provide distance alerts to nearby detected objects behind your vehicle to help you park and avoid collisions when traveling in Reverse at low speeds. Standard on Premier. Available on LT.

**IntelliBeam®.** Can automatically turn the vehicle’s high beam headlamps on and off according to surrounding traffic conditions. Available on LT and Premier.

**HD Surround Vision.** Uses multiple cameras to display a digital overhead image of the area around your vehicle along with Rear Vision Camera or front camera views. It works at low speeds and may help you park and avoid nearby objects. Standard on Premier.

**Rear Camera Mirror.** Rear Camera Mirror uses a camera to provide you with a wide and less obstructed view behind the vehicle while you’re driving. You can switch between the camera view and a traditional rearview mirror. Standard on Premier.

**Rear Cross Traffic Alert.** This feature can warn you of detected left or right cross traffic behind your Bolt EV when in Reverse. Standard on Premier. Available on LT.

**Safety starts with you.** Safety or driver assistance features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner’s Manual for more important feature limitations and information.
LT  Bolt EV LT includes these features:

**PROPULSION/CHASSIS**
- Battery – propulsion, 66 kWh lithium-ion Rechargeable Energy Storage System
- Brakes – 4-wheel antilock, 4-wheel disc
- Charge control – location-based, selectable GPS-enabled with programmable home charging setting and programmable time of day with charging status indicator light on instrument panel
- Charge cord – 120-volt, portable
- Charging module – 7.2 kW high-voltage
- Driver Selected Operating Modes – Normal and Sport
- Electric drive unit – 200 hp (150 kW) of motoring power, 266 lb.-ft. (360 Nm) of motoring torque
- Electronic Precision Shift – electronic transmission range selector, leather-trimmed
- Regen on Demand – driver-initiated regenerative braking, steering wheel-mounted paddle
- StabiliTrak® Electronic Stability Control System with Traction Control
- Steering – power, electric
- Suspension – Performance Ride and Handling, front independent; rear semi-independent with compound crank

**EXTERIOR**
- Daytime running lamps – LED signature
- Door handles – body-color
- Headlamps – high-intensity discharge, low and high beam projector with automatic on/off with automatic delay
- Mirrors – heated, power-adjustable, manual-folding, Black
- Taillamps – LED
- Tires – P215/50R17 Michelin® Energy™ Saver All-Season with Selfseal® technology
- Wipers – front variable-speed, intermittent with washers; rear intermittent with washer

**INTERIOR**
- Air conditioning – automatic, single-zone with cabin air filter and humidity sensor
- Cargo area – cargo cover
- Console – front with sliding armrest and covered storage
- Cruise control – electronic with Set and Resume Speed
- Door locks – power-programmable with lockout protection and manual rear door child security
- Driver Information Center – 8-inch diagonal enhanced multi-color configurable graphic display with three themes and energy-use monitors
- Entertainment – Chevrolet Infotainment System® with 10.2-inch diagonal LCD color touch-screen, AM/FM stereo, Bluetooth® audio streaming/voice command pass-through to compatible phone, and Apple CarPlay® and Android Auto™ compatibility
- Keyless Open and Start
- Lighting – interior ambient LED-based lighting, front reading lamps, dome lamp and incandescent cargo area lamp
- Media – two USB ports® and auxiliary input jack in front center console
- Remote Keyless Entry – extended-range
- Remote vehicle starter system
- Seats – front bucket seats with 6-way manual adjusters; rear, 60/40 split-folding
- Steering column – manual tilt and telescopic
- Steering wheel – 3-spoke, deluxe with mounted audio, cruise and phone controls
- Windows – power with driver express-up/-down, all others express-down

Dark Galvanized Gray Cloth with Sky Cool Gray Accents

17" Painted-Aluminum Wheels

Standard on LT

1 Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. 2 Go to my.chevrolet.com/learnAbout/bluetooth to find out which phones are compatible with the vehicle. Full Bluetooth feature functionality varies by device, model and software version. 3 Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. 4 Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates apply. 5 Not compatible with all devices.

\(^1\) A note on child safety: Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active front passenger airbag. 

\(^2\) Read the vehicle Owner's Manual for important feature limitations and information. 

\(^3\) When you select a monthly plan within 30 days of activating your 1-month trial, you'll receive the first 2 months of the plan you select at no additional charge when you associate an approved payment method on file to your account and authorize recurring payments for your service plan. The amount and frequency of each recurring payment is based upon the service(s) and payment interval(s) you select from the options provided. After the trial expires, OnStar will automatically bill your payment method monthly at then-current standard monthly rates. Plans containing 4G LTE data will be billed every 30 days by AT&T. You may cancel at any time by pushing your blue OnStar button or calling 1-888-468-7827. May not be combined with other offers or retroactively applied. Offer subject to change. 

\(^4\) Advisor-based Turn-by-Turn Navigation is subject to User Terms and limitations, and varies by vehicle model. Map coverage available in the United States, Puerto Rico and Canada. Availability subject to change. 

\(^7\) The system wirelessly charges one compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter/ back cover. To check for phone or other device compatibility, visit my.chevrolet.com/learn or consult your carrier. 

\(^9\) Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. 

\(^10\) Go to my.chevrolet.com/learnAbout/bluetooth to find out which phones are compatible with the vehicle. Full Bluetooth feature functionality varies by device, model and software version. 

\(^11\) Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. 

\(^12\) Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates apply. 

\(^13\) Not compatible with all devices. 

\(^14\) If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. See the SiriusXM Customer Agreement at siriusxm.com for complete terms and how to cancel. All fees, content, features and availability are subject to change. 

\(^15\) Service varies with conditions and location. Requires active service and paid AT&T data plan. Visit onstar.com for details and limitations. Availability subject to change. 

\(^16\) Standard connectivity available only to original purchaser for up to 10 years. Connected Access services subject to change. Does not include emergency or security services. Diagnostic capabilities vary by model and service plan. Message and data rates may apply. Requires contact method on file and enrollment to receive alerts. Not all issues will deliver alerts. Visit onstar.com for details and limitations.
NEW VEHICLE LIMITED WARRANTY
Chevrolet will warrant each 2021 Bolt EV with:
- 3-year/36,000-mile Bumper-to-Bumper Limited Warranty.
- 6 years/100,000 miles of Rust-Through Protection.
- 5-year/60,000-mile Powertrain Limited Warranty.
- 5 years/60,000 miles of Roadside Assistance.
- 8-year/100,000-mile Electric and Hybrid Vehicle Warranty Coverage and Courtesy Transportation.

Enroll. It’s quick, it’s easy and there is no cost to join. You will automatically receive points just for enrolling. To enroll, visit mychevroletrewards.com.

Earn. Earn points on eligible new vehicle leases or purchases, which can be redeemed toward accessories, vehicle service and more. Plus, get points for paid service select OnStar® and Connected Services plans, and many others.

Enjoy. Use points toward eligible accessories, paid service, eligible new vehicles and more. It’s our way of saying thanks!

Your first visit is covered Experience Chevrolet Complete Care, a comprehensive coverage, limited warranty and protection program that comes standard with every new 2021 Chevrolet Bolt EV lease and purchase.

Simply, it is designed around you, to make it easy to help keep your Chevrolet like new and give you the confidence you deserve.

1 Cargo and load capacity limited by weight and distribution. 2 Charging rate varies based on output of the charge unit, vehicle settings and outside temperature. 3 EPA-estimated 259-mile EV range. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. 4 Must be 18 years or older. Points may be earned and redeemed only at participating GM entities, dealers or third party retailers in the United States (excluding Puerto Rico, the U.S. Virgin Islands or Guam). Points are not earned on taxes or certain fees, and expire 5 years from when points are earned. Some restrictions apply. For more information, please view full program Terms & Conditions. 5 Members may use the voucher on eligible Chevrolet, Buick, GMC and Cadillac Accessories purchased through a participating dealership. Voucher must be used by expiration date noted. Any unused amount of the voucher will be forfeited. 6 Excludes taxes, fees and body shop repair orders. It could take up to 15 days for points to post to your account. 7 Connected vehicle services vary by vehicle model and require working electrical system, cell reception and GPS signal. Requires active service plan. OnStar links to emergency services. Visit onstar.com for details and limitations. 8 Not compatible with some other offers, including the GM Employee Discount programs. Excludes 2020 Chevrolet Corvette. Dealer contribution may affect final consumer cost. 9 Maintenance visit must occur within first year of vehicle delivery. Service visit consists of Tire Rotation/MPVI. Does not include air filters. See participating dealer for other restrictions and complete details. 10 Whichever comes first. See dealer for details. 11 Roadside service provided by Allstate Roadside Services. Limitations apply.
IMPORTANT INFORMATION

Chevrolet Owner Center (my.chevrolet.com). Everything you need to know. Anything you need to do. Your Chevrolet Owner Center makes it easy. Create your account today to get the most out of your new vehicle. Get special alerts and offers, schedule service, review your maintenance schedule, and view how-to videos specifically for your vehicle. All online, anytime. Visit the Owner Center today to register or take a tour.

Assembly. Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

Chevrolet Connected Services and OnStar. Connected vehicle services vary by vehicle model and require an active service plan, working electrical system, cell reception and GPS signal. OnStar links to emergency services. Visit onstar.com for details and limitations.

A note on child safety. Always use seat belts and the correct child restraint for your child’s age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner’s Manual and the child safety seat instructions for more safety information.

Important words about this catalog. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Small MPV segment and latest available competitive information. Excludes other GM vehicles.

Fleet orders. Some standard content may be deleted on fleet orders. See dealer for details.

Spare tire information. There is no standard jack or spare tire in the 2021 Chevrolet Bolt EV. This vehicle may have self-sealing tires that use a material inside that can seal punctures up to 6 mm (0.25 in.) in the tread area. The tire may lose air pressure if the sidewall is damaged or the tread puncture is too large. It is recommended that you take the tire to an authorized retailer for inspection and repair as soon as possible, but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than one-quarter inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire and for one time before its expiration date.

Chevrolet ownership experience. Chevrolet is committed to enhancing the vehicle shopping and ownership experience through a wide array of programs. Visit chevrolet.com to build and price, find a vehicle, request a quote, compare vehicles, find financial tools or track your vehicle order. You’ll also find information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance, GM Mobility, safety and current incentives.

Chevrolet.com/safety. Chevrolet is committed to helping keep you and your family safe — from the start of your journey to your destination. That’s why Chevrolet vehicles offer standard and available safety and security features to help give you peace of mind.

GMmobility.com (1-800-323-9935). GM Mobility™ offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

The BuyPower Card. The Chevrolet BuyPower Card — Every purchase you make with the BuyPower Card from Capital One® helps you earn toward an eligible new Chevrolet, Buick, GMC or Cadillac vehicle. There’s no limit on the amount you can earn or redeem, and your Earnings don’t expire. Visit chevroletbuypowercard.com/catalogs.

* Capital One, N.A. is the issuer of the BuyPower Card. General Motors (“GM”) is responsible for the operation and administration of the Earnings program.
