2019 CHEVROLET COPO CAMARO 50TH ANNIVERSARY EDITION

In 1969, the first purpose-built Camaro drag-racing specialty car was designed to compete in the NHRA Stock Eliminator. Since that time, the COPO Camaro has captured national records for quarter-mile times and has become one of the most iconic cars to ever hit the drag strip. Chevrolet is proud to celebrate 50 years of the COPO legacy with an all-new special edition for the 2019 model year. Only 69 COPO Camaro models will be produced (part number: 20199562) for the 2019 model year. To register for your chance to be selected to purchase a 2019 COPO, visit https://www.chevrolet.com/performance/copo-camaro.

COPO CAMARO FEATURES:
• LSX-based 427-cu.-in. naturally aspirated engine (available LSX-based 350-cu.-in. supercharged engine or LT-based 302-cu.-in. direct injection engine)
• TH400 3-speed automatic
• Front suspension: lightweight adjustable front struts
• Rear suspension: multilink
• Adjustable coil-over shocks, panhard bar and anti-roll bar
• Rear axle with an aluminum center section, 35-spline spool and axles
• Brakes: manual lightweight rotors and calipers
• Integrated line lock
• Manual rack-and-pinion steering
• Fuel storage system with fuel cell and built-in high-pressure fuel pump
• Dedicated racing wire harness
• High-rise carbon-fiber hood
• Outside reareview mirror delete with painted closeout
• Wheelie bars
• Drag parachute (included with supercharged engines)
• Available Racing Package (dual batteries, weight box, carbon-fiber air intake and quick-change coupling with supercharged engine and a drag parachute for naturally aspirated engines)
• Hoosier 9-inch x 30-inch x 15-inch drag tires1

For more information, contact WELD at (800) 788-8353.
2019 CHEVROLET eCOPO CAMARO CONCEPT

Fifty years after the original COPO Camaro special-order performance models were introduced, Chevrolet's eCOPO Camaro Concept demonstrates an electrified vision for the world of drag racing. This concept pushes the limits to learn what's possible with electronic propulsion in the high-performance space and supports GM's vision to create a world with zero emissions.

To create this concept, Chevrolet partnered with Hancock and Lane, not only for the team's success in NHRA drag racing, but their involvement with Patrick McCue, who helped create the world record holder Shock and Awe electric drag race car as part of his Seattle-area Bothell High School auto shop program. This auto shop program aligns with Chevrolet and GM's commitment to engaging young minds in STEM (Science, Technology, Engineering and Math) education.

Chevrolet pioneered the concept of the high-performance crate engine right around the time the original COPO Camaro models were created, and the eCOPO Camaro Concept points to a future that could include electric crate motors for racing or street rods.

COPO CAMARO FEATURES:
• TH400 3-speed automatic
• Front suspension: lightweight adjustable front struts
• rear suspension: multilink
• Adjustable coil-over shocks, panhard bar and anti-roll bar
• Rear axle with an aluminum center section, 35-spline spool and axles
• Brakes: manual lightweight rotors and calipers
• Integrated line lock
• Manual rack-and-pinion steering
• Racepak Smartwire “fuseless” programmable electrical system
• Altronics lithium 16-volt race chassis battery system
• Outside rearview mirror delete with painted closeout

CHEVYSEMA.COM
2019 CHEVROLET SILVERADO 1500 TOWING & TECHNOLOGY

The all-new 2019 Silverado 1500 Towing & Technology truck demonstrates that today’s Chevy full-size trucks focus on how customers can tow — emphasizing confidence and convenience over the maximum trailering specs and capability numbers. While Silverado still has substantial trailering ratings to meet customers’ needs, the next generation of Silverado 1500 trucks represent a shift toward improving the trailering experience through design and technology. For more details, see your Chevrolet dealer.

SILVERADO 1500 LTZ FEATURES:
- Standard 5.3L EcoTec3 V8 engine with 355 horsepower and 383 lb.-ft. of torque
- 8-speed automatic transmission
- Integrated trailer brake controller
- Two-speed Autotrac® electronic transfer case
- Automatic locking rear differential
- Available Z71® Off-Road Package, including:
  - Off-road suspension
  - Hill Descent Control
  - Skid plates
  - High-capacity air filter
  - Z71 hard badge
  - Dual exhaust with polished outlets
- Advanced Trailering Package1
- Available Advanced Trailering Camera System
- Black exterior color
- Power lock and release tailgate with lift assist
- Available spray-on bedliner
- LED fog lamps
- Heated, power-adjustable, power-folding outside mirrors with puddle lamps and perimeter lighting
- Chevrolet Infotainment 3 System2 with 7-inch (diagonal) color touch-screen

CONCEPT† FEATURES:

2019 CHEVROLET COLORADO ZR2 BISON

Colorado ZR2 offers everything you need to take on the trails. Now, Chevrolet is pushing the limits even further by teaming up once again with premier off-road aftermarket supplier AEV (American Expedition Vehicles) to create a unique adventure-ready Colorado ZR2 Bison. This ZR2 Bison model (initially a concept at last year’s SEMA Show) benefits from the unmatched factory capabilities of Colorado ZR2 – which excels on the street, off-road or crawling on rocks — and adds even more capability thanks to AEV parts geared specifically to off-road recreational driving and overland adventure travel. It’s scheduled to be available at Chevrolet dealerships in January 2019.

COLORADO ZR2 BISON FEATURES:

- Standard 3.6L V6 engine with 308 horsepower and 275 lb.-ft. of torque
- Available Duramax® 2.8L Turbo-Diesel engine with 181 horsepower and 369 lb.-ft. of torque
- 8-speed automatic transmission
- Multimatic DSSV (Dynamic Suspensions Spool Valve) damping system
- Trailering Package
  - Integrated trailer brake controller
  - Two-speed Autotrac® electronic transfer case
  - Eaton electronic locking rear differentials, front and rear
- AEV front and rear steel bumpers
- AEV Skid Plate Package
- AEV exterior badging
- Chevrolet lettered grille
- 31-in. Duratrac® tires and 17-in. AEV wheels
- Unique wheel flares
- Fog lamps
- Spray-on bedliner
- Projector-type headlamps
- AEV-logo headrest
- AEV-logo floor liners
- Heated, power-adjustable, manual-folding outside mirrors
- Chevrolet Infotainment 3 Plus System1 with 8-inch (diagonal) color touch-screen

2019 CHEVROLET COLORADO ZR2: OFF-ROAD PERFORMANCE PARTS

Colorado ZR2 is built to venture into the dirt, desert sands, mud and rocks — to the delight of thousands of owners since the truck variant hit the market in fall 2017. So how does Chevrolet top the off-road adventure straight from the factory? A new lineup of true factory off-road racing parts is ready to elevate the capabilities of Colorado ZR2 even further. The outcome of decades of off-road racing expertise, they’re developed by engineers and racers as passionate about performance as you are. Each component is tuned and validated on over 10,000 combined off-road race and development miles including unforgiving “Best in the Desert” race courses, the Baja 1000 and the General Motors Yuma Desert Proving Grounds. For the first time, they’re available over the counter, only from Chevrolet Performance.

COLORADO ZR2 FEATURES:

- Standard 3.6L V6 engine with 308 horsepower and 275 lb.-ft. of torque
- Available Duramax® 2.8L Turbo-Diesel engine with 181 horsepower and 369 lb.-ft. of torque
- 8-speed automatic transmission
- Multimatic DSSV (Dynamic Suspensions Spool Valve) suspension system

2019 CHEVROLET COLORADO ZR2
CHAD HALL RACE TRUCK

When you ask driver Chad Hall of the Colorado ZR2 Off-Road Racing Team about their goal in this season’s 539-mile Vegas-to-Reno challenge in the Best In The Desert Off-Road Racing series, his answer remains the same as last season: “To finish.” This Colorado ZR2 off-road race truck† accomplished that feat for the second time in two tries in the grueling Vegas-to-Reno race, reaching the finish line in 14 hours, 34 minutes and 27 seconds on the weekend of August 17-18. The victory was not only a celebration for the team but also a win for off-road enthusiasts. With every successful race, the Hall Racing and Chevrolet Teams test the design and durability of Chevrolet Accessories and Performance Parts and helps verify what they are ready to offer to all Colorado ZR2 owners.

COLORADO ZR2 FEATURES:
• Standard 3.6L V6 engine with 308 horsepower and 275 lb.-ft. of torque
• 8-speed automatic transmission
• Multimatic DSSV (Dynamic Suspensions Spool Valve) damping system
• 31-inch (OD) Goodyear Wrangler Duratrac® all-terrain tires (QJ2)
• Two-speed Autotrac® electronic transfer case
• Eaton electronic locking rear differentials, front and rear
• Hill Descent Control1
• EZ Lift & Lower Tailgate
• Wireless charging2
• Chevrolet Infotainment 3 Plus System3 with 8-inch (diagonal) color touch-screen
• Remote Start
• Black Chevrolet bowties
• Projector-type headlamps
• Heated front seats
• Heated steering wheel

CHEVYSEMA.COM
1967 C/10 SHORT BOX 2WD PICKUP CONCEPT

Chevy pickups entered the modern era in the 1960 model year with the C/K series. The “C” designation represented two-wheel-drive trucks, while the “K” helped to identify 4x4s. The C/10 was one of the most common of the era and was a half-ton truck with a 6.5- or 8-foot cargo box. This 1967 C/10 includes a complete ZZ6 EFI (Electronic Fuel Injection) crate powertrain package from Chevrolet Performance with performance and innovation that builds on the last six decades of the Small Block legacy.

CONCEPT FEATURES:
- Lowered suspension
- Chevrolet Performance Small Block Valve Covers and Air Cleaner
- Centennial Blue exterior
- 20 x 8.5-inch front, 20 x 10-inch vintage-style full-polished wheels with knock-off centers
- 255/40R20 front, 295/40R20 rear tires
- Heritage Chevrolet bowties
- Soft ray tinted glass
- Exterior modifications on front bumper, engine compartment, tailgate and rear bumper
- 100-Year Centennial exterior badges
- Raised Chevrolet Centennial bowtie on bed floor
- Brushed finish exterior trim
- LED exterior and interior lighting
- Modified stock cluster with new gauges
- Bench seat with improved bolsters and headrests with embossed Chevrolet logo
- Retrimmed interior in Porcelain White

1969 CHEVROLET COPO CAMARO

The COPO legacy began in 1969 when the first-purpose built Camaro drag-racing specialty car was born to compete in the NHRA Stock Eliminator. Initially introduced as the ZL-1 COPO Camaro, it was a part of (and named after) the Chevrolet Office Production Order system (COPO), which cunning Chevrolet dealers used to build one-of-a-kind, high-performance models. COPO was produced in limited numbers using special Central Office Production Orders 9561 and 9560. The COPO 9561 included a 427-cu.-in. iron block with 425 horsepower. The COPO 9560 was a high-performance race car with an aluminum block 427 engine and 425 horsepower known as ZL-1 (69 units were built). This 1969 COPO is one of the most authentic and restored with the very first ZL-1 Fisher body number “NOR222001.” It is Lemans Blue with a Black standard interior and an X44 base car trim tag code. The drivetrain is a correct date coded original ZL-1 engine with the original M21, 4-speed transmission and an original BE coded 12-bolt posi rear end.
1973 CHEVROLET LAGUNA CONCEPT

For nearly 50 years, Chevrolet has fueled the passion of automotive enthusiasts everywhere with a wide range of engine blocks, engines, transmissions, Connect & Cruise systems and more. This 1973 Laguna Concept showcases a new modern design inspired by its dominance in NASCAR® from 1974-1976. It also highlights what's next from Chevrolet Performance and debuts an all-new LT5 crate engine. If you've got a dream in your garage, we've got the crate engine to get it on the street or track.
