COOL UNDER PRESSURE.

There's only one choice when it comes to accessories for your Camaro. Chevrolet Accessories are completely in tune with the engineering and design standards set forth by Camaro.

Our front grille options are developed and optimized using CFD (Computational Fluid Dynamics) to achieve the necessary engine airflow requirements. They are engineered to meet all the aerodynamic, airflow, safety and styling requirements of Camaro. In addition, our Illuminated Bowtie has been turned on and off 1.5 million times during extensive LED testing and has endured extreme temperatures ranging from -40°F to 158°F to help provide a long-lasting, consistent glow. This bowtie touts a distinct backlit appearance that illuminates through chrome, a design you’ll be hard-pressed to find anywhere else on the road.

The parts listed in this catalog are intended primarily for use in racing, track applications or "off-road" vehicles only — they are not intended for use on public roads. U.S. federal law and Canadian law prohibit an automobile manufacturer or dealer from removing, modifying or rendering inoperative any part installed on a motor vehicle in compliance with an applicable Federal Motor Vehicle Safety Standard or any part of federally required emission control systems on a motor vehicle used on public roads. Further, many states and provinces have even more strict laws concerning the removal of emission control systems and components.

These components are intended for installation and operation in off-road uses only. They may not meet the durability and performance requirements of GM or Chevrolet. The use of these components in GM or Chevrolet vehicles may void part or all of the New Vehicle Limited Warranty. Use of these components in GM vehicles may result in the failure of other components or systems, which would not be covered under the New Vehicle Limited Warranty. In the case of specific restrictions, Chevrolet Performance customers are responsible for ensuring that their use of Chevrolet Performance Parts complies with applicable federal, state and local laws, regulations and ordinances.
LE SUSPENSION HANDLING PACKAGE

(1LE Track Pack—Street, SS Coupe with Magnetic Ride Control™)

This 1LE kit uses the same hardware and shock calibration as the production 1LE. The stiffer stabilizer bars, higher-rate springs and handling links reduce body roll and increase steering feel.

P/N 84233245.

MSRP*: $1,500.

SHORT-THROW SHIFTER

The 1LE Performance Package shifter delivers shorter, more precise shifts for a greater feeling of control and immediate performance. It is a direct replacement for the standard manual shifter on Camaro LS/LT and SS models. No knob or boot included. The shift throw is reduced by 4.2% for the LT1 V8, P/N 24287123.

MSRP*: $325.

LTG L4/LGX V6, P/N 24283947.

MSRP*: $325.

SUEDE SHIFT KNOB WITH BOOT

P/N 24287140 (2.0L Turbo and 3.6L V6).

P/N 24287141 (6.2L V8).

MSRP*: $170.

6.2L STRUT TOWER BRACE

Enhance the road feel of your Camaro. Standard on Camaro SS Convertible, this lightweight, aluminum underhood tower-to-tower brace enhances chassis stiffness, contributing to a more direct steering response. It’s a direct bolt-on for 2016+ Camaro SS Coupe models only. Base and installation hardware included.

P/N 84125309.

MSRP*: $195.

UNLESS SPECIFICALLY NOTED TO THE CONTRARY HEREIN, VEHICLES EQUIPPED WITH CHEVROLET PERFORMANCE PARTS MAY NOT MEET FEDERAL MOTOR VEHICLE SAFETY STANDARDS AND EMISSIONS REGULATIONS AND SHOULD NOT BE OPERATED ON PUBLIC ROADS.

Chevrolet Performance customers are responsible for ensuring their use of Chevrolet Performance Parts complies with applicable federal, state, and local laws, regulations, and ordinances. Many parts intended for racing or other “off-highway” use are not designed or tested to withstand stresses or to meet the safety needs of the braking systems, and may adversely affect the original intended performance or handling characteristics of the vehicle. These parts are not designed or intended to be used with regards to racing, installation, and use to help ensure the proper and safe operation of the vehicle. Chevrolet Performance parts are not a substitute or replacement for the power cord or a 12-volt battery warranty as per only.

PERFORMANCE PARTS

TAKE IT TO THE NEXT LEVEL.

Camera has always been about progressive levels of performance. Take your LS up a level by adding on essential items from the iconic 1LE Option Package designed to intensify your handling feel in and out of the corners.

SUSPENSION UPGRADES

1LE SUSPENSION HANDLING PACKAGE

(1LE Track Pack—Street, SS Coupe with Magnetic Ride Control™)

The 1LE Kit has the same bars and shock calibration as the production 1LE. It stiffens the chassis bars, raises front and rear coil springs, and improves the handling feel. The stiffer stabilizer bars, higher-rate springs and handling links reduce body roll and increase steering feel.

P/N 84233245.

MSRP*: $1,500.

LOWERING SUSPENSION UPGRADE SYSTEM

Designed to lower your Camaro 20mm at each corner and help improve the handling feel. Uses high-rate front and rear coil springs, along with specifically tuned shocks and struts.

Chevrolet Performance offers a wide range of factory-engineered crate engines. Each is designed, validated and built with the same quality and performance standards that go into GM production engines.

1. LT1 CRATE ENGINE

The LT1, as opposed to its LS family of engines, is not a simple block copy of a high-performance LS engine. It’s architecturally similar to the LS family of engines, but with a unique block casting, cylinder head design, oiling system and more. It also combines advanced technologies including direct injection, Active Fuel Management (cylinder deactivation) and continuously variable valve timing to support an advanced combustion system. The LT1 6.2L crate engine is rated at 460 horsepower and 465 lb.-ft. of torque, and it’s offered with a wet sump or dry sump oiling system. A controller specially designed for retro fit application using an automatic transmission is available.

- Wet Sump (460 horsepower), P/N 19355405. MSRP*: $11,644.
- Dry Sump (460 horsepower), P/N 19329997. MSRP*: $11,644.

2. LT4 ENGINE

The supercharged LT4 6.2L SC is the most powerful engine ever offered in a regular-production Chevrolet. It features a more efficient, more compact 1.7L Eaton R1740 TVS supercharger, which spins at up to 20,000 rpm. That’s enough to generate more than 9 pounds of boost and help produce 650 horsepower and 650 lb.-ft. of torque. The LT4 is based on the same Gen V Small-Block architecture as the LT1 engine, with several unique hardware changes to support the engine’s higher output and the greater cylinder pressures created by forced induction. They include Rotocast A356T6 aluminum cylinder heads that are stronger and handle heat better than conventional castings, lightweight titanium intake valves and stronger forged aluminum pistons.

- Wet Sump (650 horsepower), P/N 19368622. MSRP**: $16,172.
- Dry Sump (650 horsepower), P/N 19332702. MSRP**: $16,919.

*Manufacturer’s Suggested Retail Price. Tax and installation extra.

**Chevrolet Performance control kits do not utilize the AFM components on this crate engine.
