The Chevrolet Accessories Enthusiast Brochure features hundreds of accessories that are designed, engineered, tested and backed by Chevrolet. An additional offering of Associated Accessories is also available from third-party manufacturers. The Associated Accessories symbol denotes that the accessory is engineered and sourced by third-party companies, each with its own individual warranty coverage.

Most Chevrolet Parts and Accessories sold and installed on a Chevrolet vehicle by a Chevrolet Dealer or a Chevrolet-approved Accessory Dealer/Installer (ADI) before delivery to the customer are covered by the applicable limited warranty. If Chevrolet Accessories are installed after vehicle delivery or are replaced under the New Vehicle Limited Warranty, they will be covered as parts only, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. The manufacturer’s warranty on Associated Accessories, if applicable, will be honored by the dealer for the remainder of the original New Vehicle Limited Warranty period. See your dealer for details.

Open to the most loyal Chevy Truck owners can join Chevy Truck Legends. As members of this exclusive group specially recognized by Chevrolet, they represent the generations that have kept Chevys trucks going strong for over a century.

To honor the many miles, moments and memories under their belts, Chevrolet Accessories offers Truck Legends the privilege of 20% below MSRP1 online on the only accessories designed, engineered, tested and backed by Chevrolet, or selected from our lineup of Associated Accessories. Enroll at ChevyTruckLegends.com and then get busy personalizing, customizing and accessorizing online at Chevrolet.com/accessories.

THE ONLY ACCESSORIES DESIGNED, ENGINEERED, TESTED AND BACKED BY CHEVROLET.

Developed in harmony with the vehicle-level engineering and design standards of Chevy trucks, Chevrolet Accessories are created to fit right and work in concert with the long list of systems and components of your Colorado.

Chevrolet Accessories make the grade because they’re tested by Chevrolet engineers to meet our own exacting standards. Depending on the accessory, those tests may include:

- Cycle tests that include thousands of on/off and open/close cycles
- Corrosion testing
- Deflection, impact or stone chip resistance
- Electromagnetic compatibility with Chevrolet Entertainment Systems
- Vibration and moisture resistance

ILLUMINATED BOWTIE EMBLEMS ARE CYCLED 1.5 MILLION TIMES, FEATURE 100% WATERPROOF CONSTRUCTION AND ARE TESTED TO WITHSTAND EXTREME TEMPERATURES FROM -40°F TO 158°F.

Testing and validation continues from there. Wherever applicable, our engineers perform extensive validation testing on truck wheels for component durability, materials quality, system checks and more:

- Component Level Tests — Including radial and rotary fatigue, impact, torque tension and leak testing
- System Checks — Rapid air loss, pothole and road hazard impacts, rim slip and trim retention
- Material Testing — Thermal shock, paint adhesion, chemical and mechanical analysis and multiple corrosion tests, including a 1,000-hour salt spray
- Quality Checks — Dimensional testing, uniformity, porosity checks, design and process failure analysis

With thousands of items that focus on quality, style and selection, Chevrolet Accessories are the simple choice. Whether they’re designed, engineered, tested, and backed by Chevrolet or selected from our lineup of Associated Accessories, count on them to be the right fit for your vehicle and for your lifestyle. Shop the entire portfolio on Chevrolet.com/accessories.

Associated Accessories are not tested by Chevrolet or necessarily undergo the same third-party testing procedures as Chevrolet Accessories.

2019 COLORADO SPECIAL EDITIONS

THERE’S A COLORADO JUST FOR YOU.

When it comes to choosing a Colorado that’s just right, the available trim levels, packages and options are only the start for some. Most Chevrolet Parts and Accessories sold and installed in a Chevrolet vehicle by a Chevrolet Dealer or a Chevrolet-approved Accessory Distributor (FADD) before delivery to the customer are covered under the applicable limited warranty. If Chevrolet Accessories are installed after vehicle delivery, or are replaced under the New Vehicle Limited Warranty, they will be covered, parts and labor, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. Chevrolet Parts sold over the counter, or those not requiring installation, will continue to receive the standard Chevrolet Dealer Parts warranty of 12 months, if the above conditions are met. Chevrolet warranties do not apply to Associated Accessories. See your dealer for details.

1. Manufacturer’s Suggested Retail Price. Tax and installation extra. See dealer for details.
2. At peak rated airflow of 240 grams per second.
3. Estimated power based upon SAE test procedure J1349.
4. Estimated performance based upon GM test procedure 0289.
5. Performance gains vary per vehicle.
WE FINISH WHAT WE START.

SIX EVENTS AND SIX FINISHES. That’s how the Hall Racing Chevrolet Colorado ZR2 conclusively proved the off-road credibility of Chevrolet Performance Parts for the production ZR2. In its 2017 debut year, the team kicked off with:

• Class wins in the “Best in the Desert” Vegas-to-Reno and Tonopah 250 races
• Successfully pre-running the Baja 1000

In 2018, the Hall Racing Chevrolet Colorado ZR2 continued to finish what it started with class wins in the Parker 425, Mint 400, Silver State 300 and the Vegas-to-Reno off-road races.

1.5-INCH BODY LIFT SYSTEM

Increase front and rear ground clearance to accommodate popular off-road tire options. 1.5-in body spacers, impact beam, cornering brake, and rear bumper relocation bracket, bed spacer blocks, a rear bumper trim, spacer and a set of intake spacers, plus hardware, the system is a direct bolt-on for the 2017-2019 Chevrolet ZR2 models.

P/N 84402366.

FRONT OR REAR JOUNCE SHOCK SYSTEM

Front or Rear Jounce Shock Systems (sold separately) incorporate nitrogen-charged secondary suspension bump shocks developed for off-road racing and rock crawling. Designed specifically for the 2017-Colorado ZR2 models improved visibility by off-road use, they gently reduce a gross vehicle motion control, increase suspension capacity, and provide improved bump and bottoming protection for extreme off-road conditions. Complete front or rear bolt-on systems include Jounce Shocks for each side, required mounting brackets and all required fasteners. For the Rear Jounce Shock System, Chevrolet recommends pairing with the Cross Car Beam System (P/N 84403779) for all V6-equipped off-road applications. Requires Leaf Spring Mount Jounce Striker Pads (P/N 84422116), available separately.

P/N 84403780. Rear P/N 84422546.

CROSS CAR BEAM SYSTEM

Designed to increase the rigidity of the 2017–Colorado ZR2 rear frame assemblies, the system helps counteract loads from the ZR2 Rear Jounce Shock Systems Recommended for pairing with the Chevrolet Cross Car Beam System (P/N 84403779), the system includes the beam assembly only, and required fasteners. Not available for diesel ZR2 models.

P/N 84403725.

DESGRT-TOUGH TO DUST THE COMPETITION. A new lineup of true factory off-road racing parts is ready to elevate the capabilities of Chevrolet Colorado ZR2 even further. The outcome of decades of off-road racing expertise, they’re developed by engineers and racers as passionate about performance as you are. Over 10,000 combined off-road race and development miles are proof that the Hall Racing Chevrolet Colorado ZR2—and the Chevrolet Performance Parts that power it—have made the grade.

 Chevrolet Performance is just getting warmed up with these six good reasons to put its desert-proven off-road parts on your pre-race checklist. And there’s more to come. We’re packing every component with off-road expertise to help you finish what you start.

1.5-INCH BODY LIFT SYSTEM

Increase front and rear ground clearance to accommodate popular off-road tire options. 1.5-in body spacers, impact beam, cornering brake, and rear bumper relocation bracket, bed spacer blocks, a rear bumper trim, spacer and a set of intake spacers, plus hardware, the system is a direct bolt-on for the 2017-2019 Chevrolet ZR2 models.

P/N 84402366.

FRONT OR REAR JOUNCE SHOCK SYSTEM

Front or Rear Jounce Shock Systems (sold separately) incorporate nitrogen-charged secondary suspension bump shocks developed for off-road racing and rock crawling. Designed specifically for the 2017-Colo...
STEEL DRIVESHAFT
Install superior resistance to impact damage, compared to the production aluminum 2017-2019 Colorado ZR2 driveshaft during extreme off-road and rock crawling events. Reduced 1/2 inch from the production aluminum driveshaft, this 31/2-inch diameter steel shaft features a .083-inch wall thickness, allowing for increased clearance over obstacles and improved packaging with other off-road suspension components. Delivered assembled with 1350 U-joints. Maximum driveshaft speed: 5000 rpm. P/N 84401894.

HIGH-ANGLE UPPER CONTROL ARM BALL JOINT SYSTEM
A direct replacement for the factory parts, the installation enables increased upper-ball joint articulation for increased suspension travel. A sealed design helps prevent water intrusion and a dust boot helps keep dirt and dust out of the joint. Includes front upper control arms, control arm bolts and nuts, and new ball joint nuts for a direct bolt-on installation. P/N 84402363.

BALL SPLINE HALF SHAFTS
Fixed Double Offset Joint Ball Spline Half Shafts allow for larger joint angles compared to production half shafts, accommodating lifted or leveled 2017+ Colorado ZR2 models. Featuring fixed inner and outer joints and center bar plunging, these half shafts enhance articulation while reducing feedback forces through the steering system during hard cornering and landings. Designed and validated for severe duty off-road race conditions, the system includes both Ball Spline Half Shafts and wheel nuts. P/N 84429060.

TIE ROD SLEEVE SYSTEM
This affordable solution for 2017+ Colorado ZR2 owners provides increased buckling strength for handling increased loads and suspension travel during severe duty off-road and race conditions. Tested in extreme conditions, the Tie Rod Sleeve System is a direct addition into the factory ZR2 steering system. P/N 84419134.

FRONT OR REAR LONG-TREKKER 355X SHOCKS
Designed specifically for long travel off-road race applications by Chevrolet Performance and Multimatic, the Dynamic Suspension Spool Valve Front Shocks provide up to a 15% increase in overall suspension travel (up to 10% for rear shocks when paired with the available Performance ZR2 Rear Long Travel Leaf Spring System, P/N 84402368) on 2017-2019 Colorado ZR2 models. Front shocks feature a longer shock barrel diameter (1.0 inch for rear shocks) to accommodate higher side loads, high temp seals to handle higher shock temperatures, changes to inner and outer joint lower attachments and optimized spring rate tuning. Front shocks also feature a threaded shock body to allow for side height adjustments via the lower spring seat. The rear system includes both front shocks, leg mounts, upper and lower rear washer, upper spring seats, dust boots and mounting bolts. Does not include front springs. Requires High-Angle Upper Control Arm Ball Joint System (P/N 84402363) and Plunging Ball Spline Half Shaft System (P/N 84402369). Rear shocks feature high temp seals to handle higher shock temperatures. Rear P/N 84402370. Front P/N 84402366.

The Chevrolet Performance ZR2 Off Road Performance Parts listed here are intended for off-road use.
